

Quality Policy

Flosolve recognises Quality as an essential element by identifying the needs and expectations of our interested parties and ensuring that our products and services meet the requirements and expectations of our customers and comply with relevant regulations, codes and standards.

This policy is implemented in all areas of FloSolve operations by:

- Maintaining a Quality Management System meeting the requirements of ISO 9001:2015
- Continually improving the effectiveness of our Quality Management System
- Identifying risks and opportunities and implementing relevant actions to address them
- Ensuring a clear understanding of our client's requirements
- Responding to our clients' needs and expectations
- Providing the resources to achieve our Quality objectives
- Enabling all our employees to meet quality requirements and striving to achieve good work first time, every time and on time

Consistent with this policy, specific objectives are established at relevant functions and levels within FloSolve. By mutual encouragement, commitment and cooperation through teamwork, all FloSolve employees will perform their tasks diligently in contribution to the achievement of our objectives.

These objectives will be regularly measured and reflected in FloSolve Company results as a Key Performance Indicator for our strategic objective to maintain high Quality standards.

The Management of FloSolve is committed to active participation in the implementation and regular review of the Quality Management System and the establishment of a corporate climate which encourages excellence through continual improvement.
