

PULSE® MOBILE

The connected, rugged fluid management system for field maintenance

VISIBILITY AND COMPLETE, AUTOMATED CONTROL OF BULK FLUIDS – NOW IN THE FIELD.

Extend the Pulse® Fluid Management family beyond the workshop. Pulse Mobile gives service vehicles and lube trucks a connected, rugged way to automatically track every dispense, simplify billing, and provide one view of workshop and field activity.

WHY PULSE MOBILE?

END-TO-END ACCOUNTABILITY AND FLEET-WIDE VISIBILITY

Track every millilitre in the field with automated, asset and work order-level accuracy, delivering a clear, unified view of workshop and vehicle activity.

REDUCE WASTE AND IMPROVE BILLING ACCURACY

Eliminate handwritten tickets, prevent shrinkage and simplify technician workflows for faster, cleaner, dispute-free billing.

SEAMLESS WITH PULSE PRO

Extend the trusted Pulse ecosystem from workshop to field with shared data, rules and reporting.

KEY FEATURES

RUGGED, SHOCK-RESISTANT METER (IP69K)

Built to resist vibration, dust and water for outdoor use, with overmould protection and improved sealing.

MOBILE HUB

Stores data offline, syncs when connected.

PULSE CLOUD

Consolidated workshop and field reporting.

PRESSURE TLM

Pressure-based sensing for varied tank shapes to improve inventory accuracy.

TRANSPARENT DISPENSING

Link dispenses to technicians, lorries, work orders, assets and tanks.

FIELD-DEPLOYABLE

Quick installation and configuration.
