

MODEL 215

SIGNAL PERFORMANCE YOU CAN DEPEND ON

Stay Safe, Stay Visible

Engineered for versatility across industrial, agricultural, and on-road equipment, the Model 215 series delivers bright, reliable LED signal lighting in a compact 1.4" x 5" footprint. Available in Front Position & Directional Indicator, Directional Indicator, Stop & Tail, and Stop, Tail, & Turn configurations, the Model 215 family offers efficient, space-saving solutions for a wide range of vehicle needs. Built for seamless integration and dependable performance, each variant provides robust illumination in a streamlined, easy-to-mount design.

MODEL 215

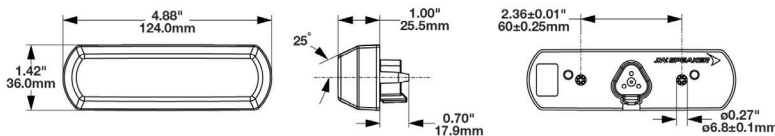

TOUGH AND RELIABLE

From agricultural fields to construction worksites to on-road motorcycles, the Model 215 offers superior signaling to keep you safe and compliant on or off the road.

Signal with Confidence

The Model 215 delivers reliable performance in harsh environments, supported by high ingress protection ratings of IP67 and IP69K. Whether subjected to dust, mud, vibration, or extreme weather, every Model 215 variant maintains reliable, long-lasting functionality. While the Model 215 is suited for a wide range of transport and industrial applications, the Model 215 Stop/Tail (0348723) is intended for motorcycle use only.

Each light in the Model 215 lineup is engineered to comply with relevant SAE and/or ECE regulations, ensuring legal and consistent signalling performance worldwide. The Front Position & Directional Indicator variant also incorporates ISO 13207 outage detection, supporting enhanced system compatibility and integration where required. Easily install to any application by using the mounting posts located on the back of the light and secure using self-tapping nuts, sold separately.

Model 215 LED Light Options

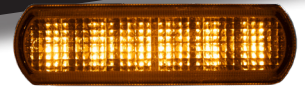

Part No.	Description
0348251	12V ECE/SAE LED Front Position & Direction Indicator
0348451	24V ECE/SAE LED Front Position & Direction Indicator
0348733	12V ECE/SAE LED Direction Indicator - 2 Light Kit
